# A BURST OF TURBO

THE NEW CLIO R.S. HAS MADE A BREAKTHROUGH IN THE SEARCH FOR PERFORMANCE. INSPIRED BY FORMULA 1, THE UNPRECEDENTED COMBINATION OF THE 1.6T R.S. 200 ENGINE, 6-SPEED DUAL-CLUTCH GEARBOX AND FIXED STEERING WHEEL PADDLES PLUNGES YOU INTO THE WORLD OF MOTOR RACING ON A DAILY BASIS, WHILST ENSURING IMPROVED ENERGY OUTPUT.

Easy to drive and comfortable for everyday use, the New Clio R.S. 200 EDC hums with racing power. The new 4-cylinder 16-valve turbo delivers **200 hp** at 6,000 rpm. Its high torque of 240 Nm is reached from 1,750 revs for **instant driving pleasure**.

This engine, developed by Renault Sport, boasts cutting-edge technology such as DLC (Diamond Like Carbon) cam followers derived from Formula 1 and Variable Valve Timing.

The New Clio R.S. 200 EDC also blends performance with practicality. Its engine verve is complemented by **tightly controlled fuel consumption\***: 6.3 l/100 km.

The sporty engine is accentuated by the exclusive coupling with a **6-speed dual clutch (EDC) gearbox**. This transmission – which is as fast as a sequential gearbox – adapts to the desired driving style: smooth gear changes in automatic mode, responsive and lively in manual, for even more driving pleasure. All of which is topped off by three driving functions, including a "Race" mode.

Inspired by the world of **motor racing**, the **steering wheel paddles** – a first for Renault Sport – provide comfort and rapidity. In "Race" mode, gear shifts take a mere 150 milliseconds.

\* Official consumption and emissions according to applicable regulations.

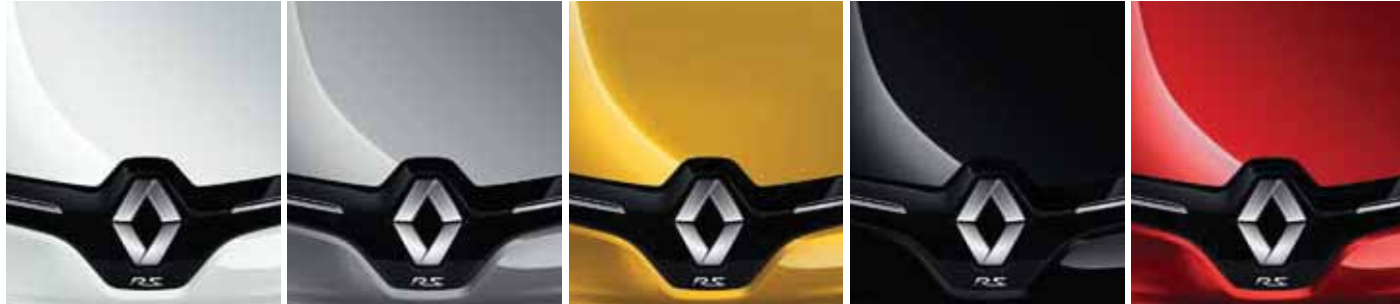

## 6-SPEED DUAL-CLUTCH EDC GEARBOX.

Sets new standards in terms of adaptability. Comfortable in automatic mode, responsive and lively in manual, for even more driving pleasure.
